THE GREAT LIES OF HISTORY

THE TRUE HISTORY OF MARIJUANA: "Even if you think you know all there is to know about marijuana, this groundbreaking DVD will blow your mind with its stunning revelations about the world's most popular drug. 'The True History of Marijuana' digs deep to expose a world-wide conspiracy, led by the petrolchemical industry, that has outlawed one of the most useful plants known to mankind. Cannabis has been used for thousands of years, in almost every culture,

in ways you may never have imagined. This shocking DVD will change the way you think about marijuana forever."

THE NEW AMERICAN CENTURY: As a follow-up to *Inganno Globale*, *The New American Century* presents the historical, philosophical, economical and political background -- some of which is totally unknown to the public -- that lends support to the accusation that the 9/11 terrorist attacks were in fact an inside-job. "*Historically accurate, narratively captivating, The New American Century is one of the best films about the facts behind the 9/11 attacks*". -- Webster G. Tarpley (Historian). "*The New American Century is a stunning film. It should be seen as widely as possible, in cinemas, bars, clubs, at meetings and, of course, through the internet. I'm sure the film will continue to be a source of debate and political education for many years.*" -- Ken Loach (British Film Director).

CANCER THE FORBIDDEN CURES: In the last 100 years dozens of doctors, scientists and researchers have come up with the most diverse, apparently effective solutions against cancer, but none of these was ever taken into serious consideration by official medicine. Most of them were in fact rejected out-front, even though healings were claimed in the thousands, their proposers often being labeled as charlatans, ostracized by the medical community and ultimately forced to leave the country. At the same time more than 20,000 people die of cancer every day, without official medicine being able to offer a true sense of hope to those affected by it. Why?

UFOS AND THE MILITARY ELITE: This film reviews all the most important cases in history in which UFOs have been involved with the military, whether as witnesses or as part of a cover-up, both in the US and abroad. The larger picture reveals a consistent pattern of deception, based on public derision and private intimidation, that was started in the 1950s with the Robertson Panel and was systematically implemented, with the full cooperation of the media, for the last 60 years. While we have all been lead to think the 'Star Wars' project was meant to protect the US from a foreign missile attack, the time has come to think

again.

THE SECOND DALLAS – WHO KILLED RFK?: This landmark documentary summarizes the best evidence that has ever emerged, contradicting the official story of Robert Kennedy's assassination. While sold by the corporate media as an open and shut case against "Palestinian radical" Sirhan Sirhan, this riveting film presents meticulously researched evidence, by several independent investigators, exposing outrageous procedure violations, blatant forgeries, and unexplained dismissals on the part of the authorities, revealing a world-class cover-up.
